MAINTENANCE

All ordinary expense of maintenance and repair, unless otherwise specified in the Company's schedules, is to be borne by the Company. If any instrument or piece of apparatus is destroyed or injured, otherwise than by unavoidable accident, the subscriber is to pay the actual cost of replacing or restoring the same to its original condition.

CUSTOMER TELEPHONE SERVICE CENTER

Repair problems involving telephone sets leased from Citizens Telephone Company can easily be taken care of at our new carry-in Service Center. Just call our repair service, explain the problem you are having, and we will tell you if the Service Center can take care of it. If it can, simply drop your telephone by and we will replace it. Although we do not repair any customer-owned telephones, we will test them for you at no charge at our Service Center on Railroad Avenue.

Call Waiting

Lets you know someone else is calling when you're using the telephone. You hear a beep tone. If you ignore the first beep, there will be a second one in ten seconds. The party calling you hears only the normal ringing.

How to use it:

1. If you hear a beep and want to end the first call, hang up. Your telephone will immediately ring with the second call.

2. To answer the second call, press and release the receiver button quickly. The first call will be put on "hold" and you will be connected to the second call.

3. To return to the first call, press and release the receiver button again. You can switch back and forth between the two calls as often as you want.

Call Forwarding

Lets you transfer your incoming calls to any telephone you can dial-direct without Operator assistance.

How to use it:

1. To forward calls dial 72, then the # symbol; listen for dial tone.

2. Dial the number that will be accepting your calls. Call Forwarding is in effect when the party answers. At that time, you can tell them they will be receiving your calls.

3. If the line is busy, or there is no answer, hang up and repeat the first two steps. No answer is required to establish Call Forwarding on the second attempt.

4. Call Forwarding can only be cancelled from your telephone. To cancel Call Forwarding dial 73, then the # symbol. You will hear two beeps, then dial tone.

Notes:

While your calls are being forwarded, your telephone will ring briefly each time your number is dialed. You cannot answer the calls, but the ring is a reminder that Call Forwarding is still in effect.

If you forward your calls outside of your local calling area, you will be charged for any calls forwarded from your number to the distant number. For example, if you forward your calls to a number in California, the person calling you is charged for a call only to your number, but you are charged the rate from your number to the number in California.

While calls are being forwarded, you can still make outgoing calls.

Three-Way Calling

This service lets you add a third party to your existing conversation without Operator assistance.

Three-Way Calling can be used whether you have received or have placed the first call.

How to use it:

1. Press and release the receiver button to put your call on "hold." You will hear a special dial tone.

2. Dial the third person's number. You can talk before including the original caller.

3. To begin the three-way call, press and release the receiver button. All three parties will be on the line. (If the line is busy or there's no answer, you can return to the original call by pressing and releasing the receiver button.)

Notes:

If the original party hangs up, you can add another third party by repeating steps 1, 2 & 3.

To disconnect the third party, press the receiver button for about a second. Your line is then free to add a different third party by repeating steps 1, 2 & 3.

All parties are disconnected when you hang up.

Speed Calling

This service lets you call frequently called numbers by dialing only one or two digits. Speed Calling is available in either 8 or 30 number capacities. These numbers can be either local or long distance.

To enter or change a Speed Calling list of 8 or 30 numbers:

1. Select a one-digit code (numbers 2 through 9) for Speed Calling-8. Select a two-digit code (numbers 20 through 49) for Speed Calling-30.

2. Dial 74 for Speed Calling-8. Dial 75 for Speed Calling-30. Listen for dial tone. Depress the # button.

3. Dial the code you have selected and the complete telephone number it will represent. Be sure to dial the number as you would normally place the call including the Area Code if it's different from your own. Depress the # button.

4. To call numbers selected for Speed Calling, simply dial the one- or two-digit code you have selected, then press the "#" button.

Note:

You will need to keep a current list of your Speed Calling numbers.

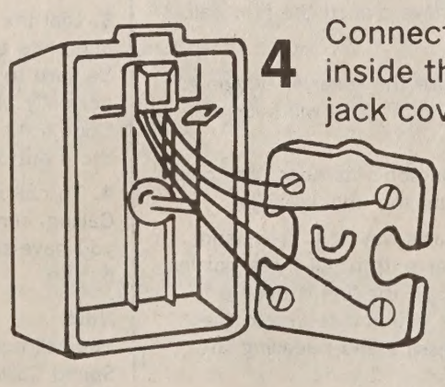
To install your phone, match the plug at the end of the telephone with the receptacle and insert. To disconnect the phone, squeeze the clip on the plug and pull it out of the receptacle.

Illustrations 3 through 5 show receptacles (non-standard jacks) which can easily be converted to modular jacks with the use of a conversion kit. Kits may be purchased from Citizens Telephone Company.

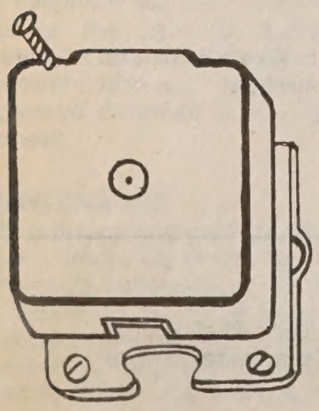
4



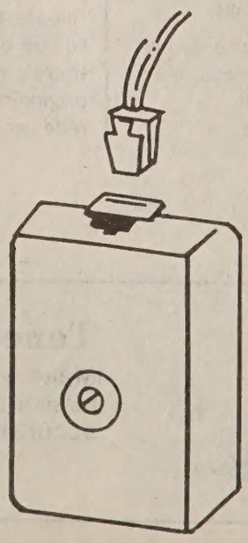
Connect the wires inside the modular jack cover.

Remove cover.

3



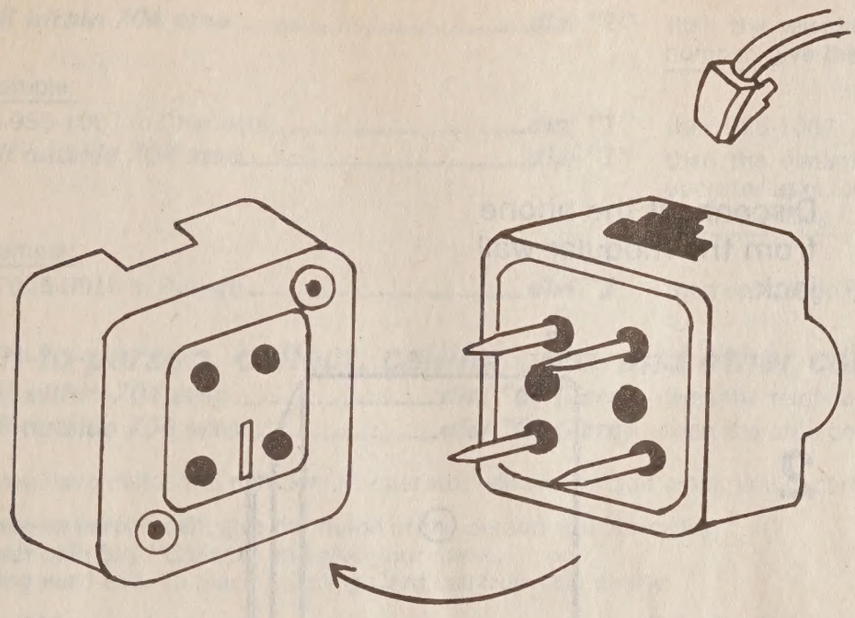
5



Position the modular jack cover over the connecting block and plug in telephone.

Illustration 6 shows a receptacle (non standard jack) which can accommodate modular cords through the use of an adapter. The adapter simply plugs into the receptacle. With the adapter in place, insert the plug as described on the previous page.

6



A receptacle for a wall-mounted phone is shown in illustration 7. area codes speed your long distance calls

The U. S. and Canada are divided into more than 120 telephone areas. Each area has a 3 figure area code. Your area code is 704 (see map). The area code of the telephone you are calling should be dialed or given to the operator if it is different from the area code of the telephone you are using. It should not be used if it is the same. (When placing call with operator, say, for example, "I want area code 311-555-2368.") When you give someone your telephone number, include your area code if he needs it to return your call. A list of selected area codes is on pages 5-9. Area codes for other places may be obtained from the OPERATOR.

WAIT...

DIAL
BEFORE
YOU
DIG!

Let the telephone company help you avoid costly and unnecessary delays. Call the telphone company for the general location of buried cable.

Take a minute to dial and save hours of non-productive heavy equipment costs.

DRIVE DEFENSIVELY

You may be right
As you drive along,
But you can be just as dead
As if you'd been wrong.
